# BITCOIN·TRENCHES

A Rune. A Movement. A Mission

🔥 WHY TRENCHES?

Solana has its trenches. Cute.
But Bitcoin is the real warzone.
We've been in the mud since Mt. Gox.
We survived China bans, bear markets, and Bitconnect.
This isn't just a token.
It's a network of maxis, memers, and degens with laser
eyes and dirt under our nails.

BITCOIN•TRENCHES is not just a Rune —
it's a decentralized battalion. Forged
for the most battle-tested Bitcoiners.
No suits. No VCs. No tears. Just memes,
conviction, and brotherhood.

📜 THE BITCOIN TRENCHES CODE

1. No Crying in the Trenches
If you're gonna panic, do it in silence — then buy the dip.

2. What Happens in the Trenches, Stays in the Trenches
Unless it's memeable. Then post it.

3. Memes Before Metrics
Vibes > Charts. Always.

4. Respect the Degen Next to You
Whether they bought the top or sold the bottom — they're still here. That counts.

5. No Simping for VCs
If it has vesting schedules and private allocations… dodge it like a landmine.

6. Stack Sats, Not Clout
Your wallet speaks louder than your threads.

7. Trenches are for Builders
Memes are code.

8. WAGMI is Currency
If you've never yelled "we're so back" — you're NGMI.

9. Sovereignty or Death
Not literally. But you get the point.

10. Trenches Are Forever
Bulls come and go. Bear markets too. But Trench culture? Eternal.

🛠️ UTILITY IS THE MEME

Let's be honest.
Memecoins don't need a use case.
Culture IS the utility.
And our culture is Bitcoin.

💣 TOKENOMICS

Token Name: BITCOIN·TRENCHES
Type: Rune on Bitcoin
Total Supply: 1B
Fair Launch: No presale, no airdrop farming, no insiders
Distribution: Trenches only. If you know, you know.

⚔️ THE MISSION

To meme Bitcoin into every timeline.
To build a decentralized trench network — where alpha flows like
rainwater and morale never drops below 69%.

🧱 CLOSING WORDS

This isn't a brand.
It's a vibe. A movement.
A Rune burned into the chain and into our collective psyches.

No roadmap. No roadmap needed.
Because we are the path.
